

HTML Text Edit Sample

(Computers, Mr. Martin)

`<html>` Start of html (hypertext markup language) document.

```
<head>
<title>Student Web Site</title>
</head>
```

The heading contains important information like the title that does not actually appear on the Web Page.

`<body>` Start of the body. This is what is on the Web page.

`<table cols="2">` Start of the table. Table has two columns.

```
<tr>
  <td></td>
  <td valign=top><font color="navy"><h2>Welcome to my Web site!</h2> Here
you will see some of the work I do in Computer Class.</font></td>
</tr>
```

First row of table. `<tr>` and `</tr>` are the tags for a row. It has two columns. `<td>` and `</td>` are the tags for columns.

```
<tr>
  <td>
<h3><center>Things I Will Do For Advent</center></h3>
```

```
<ul>
```

A bulleted list.

```
  <li>Make an Advent Wreath</li>
  <li>Pray every morning and evening</li>
  <li>Think more about how my actions affect others</li>
  <li>Give money to the Salvation Army</li>
  <li>Spend less on myself</li>
  <li>Write a note to my parents telling them how much I appreciate
everything they do for me</li>
  <li>Help my parents around the house more</li>
  <li>Make a Nativity Scene</li>
```

```
</ul>
```

```
</td>
```

```
<td>
```

```
<p></p>
```

```
</td>
```

```
</tr>
```

`</table>` End of table.

`</body>` End of body.

`</html>` End of html document.

2nd
row.
