Versatile Medallion 8mm Turret

A Designed to make movie making easier. 8mm magazine loading—features fixed focus lenses for aim and shoot operation. Camera comes with 3 pre-focused 1/1.9 coated and color-corrected lenses for brighter, more sparkling color movies. Use normal lens for most shots, wide angle lens shows higher and wider picture, telephoto lens brings up close, portion of normal picture for emphasis. Viewfinder shows field for all 3 lenses. Camera weighs only about 1½ lbs., size is about 4¼x3¾x2 in. . . can be slipped into pocket or purse—carried anywhere. Unique exposure dial—simply turn front dial to type of light condition from bright sun on snow or sand to open shade.

Durably constructed of die-cast aluminum with 2-tone Brown crackle finish. 4 film speeds: 16, 24, 32 and 48 for normal, fast and slow motion action. Footage indicator. Ship. wt. 4 lbs. Buy on Terms.
